An ambitious and creative Full stack Software Developer who is excited to learn new things everyday. I am looking for a company that I can share my enthusiasm with and one that I can also learn and grow with.

## SKILLS

### <Backend>

#### Java:

Java | Spring Boot | Thymeleaf | MySQL | NoSQL (Mongo) | AJAX | AWS | NGINX

### <Frontend>

#### JavaScript:

TypeScript | Angular

#### React:

ReactJS | Redux | Axios | Bootstrap | Cordova | Ionic | jQuery | HTML |  
CSS | JS

**Other Skills** Agile Methodologies | Scrum methodologies | Excel | Microsoft Office | Collaboration

**EDUCATION** Southern Careers Institute Powered by Woz U *October 2019 – June*  
2020 Full Stack Web Developer Certification

## **PROJECTS Woz-U-Group-Projects/new-team-freeze**

<https://github.com/Woz-U-Group-Projects/new-team-freeze.git>

**Online School Project** *(created a fully interactive online learning website that allows students, teachers, and parents the ability to check homework assignments, do homework assignments, and assign homework assignments.*

Application was developed with react front end, java for the back end, and MySQL for the database.

## **EXPERIENCE**

### **Bulk Plant Operator, Schlumberger**

**October 2018 – March 2020**

- Maintained a properly running plant with no downtime
- Blended correct percentages of chemicals in cement with no error
- Able to troubleshoot problems that no one else could resolve

### **Forklift Operator, Americold**

**February 2018 – October 2018**

- Able to efficiently put up pallets with limited space and time
- Achieved a maximum performance of moving over 300 pallets consistently

### **Woodsmith, Self-employed**

**December 2016-January 2018**

- Built fully customized furniture for clients
- Completed every job to where I could save the most money for the client

### **Bulk Plant Operator, Schlumberger**

**October 2010- November 2016**

- Blended correct percentages of chemical in cement with no error
- Able to troubleshoot problems no one else could resolve
- Maintained a properly running plant with no downtime
